Administrators and Track Coaches,

The 2022 Track Regional assignments are listed below. Thanks to all the coaches and administrators that took time in the last several weeks to assist in this process of assigning regional sites. I have listed the criteria/considerations that have been used to make the assignments. <u>All</u> of these criteria and considerations have input with no single piece of data being the determining factor for assignment.

- 1. <u>Geography:</u> The distances from the school assigned to the Regional sites were certainly considered. The unique geography this year of the location of the sites was also a factor. In a "perfect world," we would have a site in each quadrant of the state, the sites that made themselves available this spring did not present the "quadrant" option.
- 2. <u>Competitive Balance:</u> Track coaches in each class, coaches from the OSSAA Track Coaches Advisory group and veteran track officials made assignment suggestions based on the strength of the teams in recent meets while keeping in mind that girls and boys teams from the same school are assigned to the same Regional site.
- **3.** Administrators and Coaches Input: We received email input from well over 100 administrators and coaches making specific request for sites.
- 4. <u>Site Balance:</u> There is consideration given for the total number of teams at each site.

<u>Please check to see that your school has been assigned a regional site.</u> With some schools not participating in any given year, we have occasionally left off a school from being assigned. Notify Monica Woods immediately at mwoods@ossaa.com or 405-840-1116 if your school needs to be assigned a site.

Respectfully,

Mike Whaley OSSAA Track Administrator mwhaley@ossaa.com
